Lima Army Tank Plant (LATP)

Who We Are

The Lima Army Tank Plant, operating as a Government Owned Contractor Operated (GOCO) facility, and being managed under the direction of Defense Contract Management Agency General Dynamics Land Systems, is the production facility for the M1 Abrams Tank Systems. The Lima Army Tank Plant also builds structures for other DoD (vehicle) programs.

What We Do

We manage a government installation/manufacturing plant, operated by a Contractor, General Dynamics Land Systems, that produces:

- M1A1 AIM (Abrams Integrated Management) tanks and M1A2 SEP ☐ ☐ ☐
- (System Enhancement Package) upgrade tanks for the Army.
- Wolverine HABs (Heavy Assault Bridge) for the Army.
- Upper structure of the Stryker LAVs (Land Assault Vehicle) for the Army.
- Armor structural components for Stryker vehicles.
- AAV (Amphibious Assault Vehicle) structures for the United States Marine Corps.
- MK-46 weapon systems for the United States Navy.
- Abrams MBT (Main Battle Tank) kits for the nation of Egypt.
